SARAH VIEIRA

Front-End Developer

(514) 531-9628 • smarievieira@gmail.com • www.supervieira.com

ABOUT ME

I am a Front-End Web Developer who loves to create digital applications that prioritize the most efficient and enjoyable user experience possible. I am constantly searching for opportunities to make the chores of everyday life a little less troublesome through clean, reusable code.

EDUCATION

Juno College of Technology
Web Development Immersive Certificate (2020)
Web Development Accelerated (2019)

McGill University
BSc - Anatomy & Cellular Biology (2016)
Coursework includes: Introduction to Computer Programming - Java (2015)

SKILLS

- HTML5
- CSS3 & SASS
- JavaScript & jQuery
- React
- Web Accessibility
- Git & GitHub
- RESTful APIs
- Responsive Design
- Firebase
- UI Design
- Leadership
- Scope Management
- PSD conversion
- Wireframing
- Group Programming

PROJECTS

Fetch Pet Health   A fully responsive React.js application that utilizes Firebase to track and log pet health, including diagnostics and prescriptions.

HaikYou   A fully responsive React.js application that utilizes the Datamuse API and Firebase to create custom haikus.

Eventurer   A fully responsive jQuery-based application that utilizes the Ticketmaster API to search for event details.

EXPERIENCE

2016-2019   **Avonlea Animal Hospital**
Customer Service Representative
- Effectively communicated instructions of animal care to pet owners regarding courses of treatment, diagnostics and insurance claims
- Successfully enforced a profitable training protocol for new staff and highly contributed to the implementation of seasonal staff performance reviews

2016-2019   **Hollybank Animal Hospital**
Veterinary Assistant
- Assisted veterinarians in medical procedures including surgery via animal restraint, anesthetic monitoring and general animal care roles
- Conducted in-house laboratory testing in areas including urinalysis, hematology, serology and microscopy
